

Apeeron Enterprise Account Program

1. What is Apeeron Enterprise Account

Apeeron enterprise account is a program designed to serve enterprise customers different needs. Enterprise account users will get the following benefits at this moment:

1. [Add more than one license admins](#) to co-manage all your licenses. If you don't have an enterprise account, you can add only one license admin to co-manage all your licenses.
2. Get three PowerServer Mobile (PB Edition) Standalone licenses that can be used according to your needs. And enterprise account owner will be able to find these standalone servers when you own a valid subscription of PowerBuilder Universal Edition. These standalone servers subscription period will match to the latest subscription period of your PowerBuilder Universal subscription. Also, these three licenses are subject to Apeeron [Fair Usage Policy](#).

2. Who can Apply for Apeeron Enterprise Account

- Apeeron website users who are authorized by their company/organization can apply for an enterprise account.
- The login user account must be an enterprise email, and it matches to your website domain and the company name.
- Each company/organization only allows having one enterprise account.
- The end user cannot apply for this program.

3. How to Apply for Apeeron Enterprise Account

Step1 - Login to the [Apeeron Website](#) with your registered email address and navigate to the [User Center](#).
