1 New Features in InfoMaker 2017 R2

About this chapter

This chapter introduces the new features in InfoMaker 2017 R2.

1.1 PostgreSQL ODBC driver

InfoMaker supports the PostgreSQL ODBC driver, so InfoMaker apps can connect with the PostgreSQL 10 (32-bit and 64-bit) (ANSI and Unicode) database through the PostgreSQL ODBC driver.

1.2 Enhanced PDFlib method

The following settings are provided for the save as PDF method using PDFlib:

- PDF Conformance -- enables you to select a PDF conformance level when you use the PDFlib method to save data from a report to a PDF file.
- Use These Two Settings in Print Specifications -- enables you to use the page orientation and paper size settings in the Print Specifications tab, when you use the PDFlib method to save data from a report to a PDF file.

For more about these settings, refer to "Saving as PDF using PDFlib" in InfoMaker Users Guide.
